The Astronaut
MARC BAUER

9 June - 20 July 2013
Opening 8 June 2013, 18hrs

We are thrilled to announce the first solo show by **Marc Bauer**
(*1975 Geneva, lives and works in Berlin) in our gallery.

„The astronaut is not looking for Space, he’s looking for more Time to do exactly the same things. He’s equating Space with Time and the Space Program is simply an attempt to transport all our insolvable problems, our impasses, and take them somewhere else where exactly the same thing is bound to occur. However, like the walking fish, looking for more Time he may find Space instead, and then find that there is no way back. Now such an evolutionary step would involve changes literally inconceivable from our present point of view.“

William S. Burroughs
